Re: In re Factor VIII or IX Concentrate Blood Products Litigation Second Generation in the United States District Court for the Northern District of Illinois, Eastern Division.

Dear client:

Please be advised that in the Argentine cases which were part of the Multi-District Litigation No. 986, *Abad et al. v. Bayer Corp. et al.*, in the Northern District of Illinois, the court has issued an opinion indicating that it will grant the Defendants' Motion to Dismiss on *Forum Non Conveniens* upon the filing of Defendants' statement that they agree to each of the conditions "A" through "D".

We have enclosed a translated into Spanish copy of the conclusion part of the Court's Order for your information. We intend to keep you advised as to the continuing progress of this matter and whether or not these cases will be returned to Argentina.

Very truly yours,
